now we must also not forget to mention that the  
 most common of them is that the man who is  
 with the most money is the one who is the  
 most successful. This is not always true, but  
 it is often true.

with the fact that the community members that live in the  
 urban areas of the city are more likely to be poor and  
 have less access to resources than those who live in the  
 rural areas. This is because the rural areas are more  
 isolated and have fewer services and infrastructure.  
 The urban areas are more developed and have more  
 resources, but they also have more poverty and  
 inequality.

1. The first part of the document discusses the importance of maintaining accurate records of all transactions. This includes not only sales and purchases but also the flow of cash and the collection of receivables. Proper record-keeping is essential for the preparation of financial statements and for the identification of potential areas of concern.
